RUBICON

POLYGRAPH

CALIBRATION CERTIFICATE

During production, each RUBICON polygraph and all its sensors are calibrated in accordance with the technical specifications No.26.2-2356813818-001 and Ukr. Std. DSTU 8692: 2016. All indicators of measurements of RUBICON polygraphs should not deviate from technical specifications at their optimum application in the course of their operation. Users are recommended to perform periodic verification of the unit of registration and data processing, sensors of RUBICON polygraphs in accordance with the **provisions of the Ukr. Std. DSTU 8692: 2016.**

In case of detection of signs of improper operation of the unit of registration and data processing or sensors of RUBICON polygraphs, users must report these facts to the manufacturer for exceptional verification and/or repair of the equipment
